### Trade name: Palapress vario powder

· Other hazards -

### 3 Composition/Information on ingredients

<sup>•</sup> Chemical characterization: Mixtures

· Description: Product based on methacrylate copolymerisates

94-36-0	dibenzoyl peroxide	<i>≥</i> 1- <i>≤</i> 5% w/w *
	Organic Peroxides – Type B, H241 Eye Irritation - Category 2A, H319; Skin Sensitizer - Category 1, H317	
80-62-6	methyl methacrylate	<i>≥</i> 1- <i>≤</i> 5% w/w *
	Flammable Liquids - Category 2, H225 Skin Irritation - Category 2, H315; Skin Sensitizer - Category 1, H317; Specific Target Organ Toxicity - Single Exposure - Category 3, H335	
72846-00-5	1-benzyl-5-phenylbarbituric acid	<i>≥</i> 0- <i>≤</i> 5% w/w *
	Acute Toxicity (Oral) - Category 4, H302; Eye Irritation - Category 2A, H319	

• Additional information For the wording of the listed hazard phrases refer to section 16.

### 4 First-aid measures

· Description of first aid measures

- After inhalation Supply fresh air; consult doctor in case of complaints.
- After skin contact immediately wash with water and soap and rinse thoroughly.
- After eye contact Rinse opened eye for several minutes under running water.
- · After swallowing

Rinse out mouth and then drink plenty of water.

- If symptoms persist consult doctor.
- Information for doctor
  - *Most important symptoms and effects, both acute and delayed* No further relevant information available.
  - Indication of any immediate medical attention and special treatment needed No further relevant information available.

### 5 Fire-fighting measures

- · Extinguishing media
  - Suitable extinguishing agents

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- **Special hazards arising from the substance or mixture** No further relevant information available. • **Advice for firefighters** 
  - Protective equipment: No special measures required.
- · Additional information -

### 6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Not required.

- Environmental precautions: No special measures required.
- Methods and material for containment and cleaning up: Pick up mechanically.

### Trade name: Palapress vario powder

#### · Reference to other sections

Printing date 07/07/2022

No dangerous substances are released. See Section 8 for information on personal protection equipment.

### 7 Handling and storage

·Handling

· Precautions for safe handling No special measures required.

· Information about protection against explosions and fires: No special measures required.

- · Conditions for safe storage, including any incompatibilities · Storage
  - **Requirements to be met by storerooms and receptacles:** No special requirements.
  - Information about storage in one common storage facility: Not required.
  - *Further information about storage conditions:* Keep cool, if possible (not above 25 °C).

· Specific end use(s) No further relevant information available.

#### 8 Exposure controls/ Personal protection

· Additional information about design of technical systems: No further data; see item 7.

#### · Control parameters

• Components with limit values that require monitoring at the workplace:

94-36-0 dibenzoyl peroxide

EL TWA: 5 mg/m<sup>3</sup>

EV TWA: 5 mg/m<sup>3</sup>

80-62-6 methyl methacrylate

- EL STEL: 100 ppm TWA: 50 ppm S(D)
- EV STEL: 100 ppm

TWA: 50 ppm Additional information: The lists that were valid during the creation were used as basis.

#### • Exposure controls

#### Personal protective equipment

- General protective and hygienic measures
- Wash hands before breaks and at the end of work.
- · Breathing equipment: Not necessary if room is well-ventilated.
- Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Check protective gloves prior to each use for their proper condition.

recommended

• *Material of gloves* The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
